## CATALOGUE OF GRADUATES 1873-1915

PUBLISHED QUARTERLY BY THE COLLEGE  
NEWARK, DELAWARE

Entered June 22, 1904, at Newark, Delaware, as second-class matter,  
under Act of Congress of July 19, 1894

## Foreword

This pamphlet is the result of an effort to give as completely as possible essential information concerning the graduates of Delaware College from its reorganization in 1870 to the present time. A list of those who graduated before the college closed in 1859 will be prepared as soon as the data can be collected. Lack of time, however, has rendered it impossible for the compiler to collect all the data that should be found in a booklet of this kind. He will therefore be grateful to any alumnus who will provide him with pertinent information about graduates of the college, including dates of the death of any deceased graduates.

It is hoped that alumni into whose hands this pamphlet shall come will keep it by them in order that they may check up changes in addresses of graduates from lists which will appear from time to time in the "Review" (now a weekly publication) and in the "Alumni News." In view of the great difficulty which he has experienced in collecting reliable data, the compiler requests every alumnus of the institution to inform him immediately of any change in his occupation or his address. Such information is vital to the college, which earnestly desires to keep in close touch with all its alumni.
